

Keppel Coast Blues Club Activity Statement 12th November 2023

1. Keppel Coast Blues Club has remained open for most of the Year 2023 with only one Jam Session interrupted temporarily by weather, but not to Covid 19 restrictions. We have returned to Emu Park Community Hall (10th March 2024) and also Yeppoon Town Hall (12th May, 8th September, 8th December 2024) with Jam Sessions to be held there throughout the year.
2. The club was able procure more new equipment in way of (1)Vocal Microphones, (2) guitar mics and drum kit mic set, new drum stool built for strength, and drummer comfort, that was definitely a squeaky wheel that needed greasing. This new equipment is not personal to anyone but the club for club use for multiple performers as current supporting club members are still providing some equipment, this was all purchased outright by the club. We have been able to purchase hard coves, for the club drum set, that has now all arrived with some more drum equipment yet to be purchased to protect and enhance the kit we now have, with the assistance of Pete Mills and the clubs group of drummers.
3. The club has ordered and now owns a promotional Banner, with the intention to use it on the week running up to an event, which we are still getting used to and getting around to.
4. The year moving forward will see us continuing with our monthly Jam Sessions, with this year seeing us going into Town Hall on 3 occasions and bookings. We are focusing to include more youth, and foster and improve our network of musicians and relationships. To procure some more club owned equipment to take pressure off the generous club members who provide their equipment for use on our Jam Sessions.
5. We would also like to thank the partners, our group of non-musician music loving partners that also support us and our club, we appreciate you and your support and patience. We thank you.
6. And again a massive Thankyou KCA
The entire Keppel Coast Blues club group both actively involved down to our passive “lovers of music” would like to thank KCA for the amazing ongoing support, and particularly the committee group, your active support, experience and wisdom, is so very appreciated, and allows us to freely do what we love and that’s to be involved with music, this great music community we have and wish to continue to evolve and involve.
We Thank you.
